Glossary

| Section | Description | Explanation |
|--|--|---|
| Site Details | Location | This is the road name, road number (where applicable) and location of the local concern camera site. |
| | Speed Limit mph | This is the current speed limit in place at the site. |
| Personal Injury Collisions | Injury Collisions | This is the total number of collisions resulting in injury across all severities, i.e. fatal, serious and slight collisions combined. |
| | Casualties | This is the total number of casualties of all severity, i.e. fatal, serious and slight casualties combined. |
| Speed Data (based on seven day temporary speed survey - latest available data) | Percentage of traffic over Speed Limit | This is the percentage of vehicles which were travelling over the speed limit. |
| | No. of speed violations avg/day | This is the number of vehicles that committed a speeding violation on average per day when the speed survey was undertaken. <u>Please note</u> : this is <u>not</u> the number of speed offences detected at the site when enforced. |
| | 85th Percentile Speed (mph) | This is the speed at which 85% of vehicles are travelling at or below and is often used in engineering to determine the speed most drivers feel comfortable driving at. |
| | N/A | There is no recent speed data available. |
| Offences | Camera detections | This is the total number of speed offences detected by <u>camera vehicles</u> for the previous calendar year. This figure is for camera offences only, i.e. it does not include offences detected by operational police officers at the roadside. |
| Additional Information | Reason for enforcement | This is an explanation of why camera enforcement commenced at the site. Local concern sites are selected by the local authorities as part of their speed management procedures. |
